

Tanto por ciento

de una cantidad

Solución

* Calcula el porcentaje de la cantidad dada:

12% de 500 = 60

$$\frac{12}{100} \text{ de } 500 = 60$$

$$12 \times 500 = 6.000$$

$$6.000 : 100 = \underline{60}$$

5% de 800 = 40

$$\frac{5}{100} \text{ de } 800 = 40$$

$$5 \times 800 = 4.000$$

$$4.000 : 100 = \underline{40}$$

48% de 950 = 456

$$\frac{48}{100} \text{ de } 950 = 456$$

$$48 \times 950 = 45.600$$

$$45.600 : 100 = \underline{456}$$

60% de 5.150 = 3.090

$$\frac{60}{100} \text{ de } 5.150 = 3.090$$

$$60 \times 5.150 = 309.000$$

$$309.000 : 100 = \underline{3.090}$$

21% de 18 = 3,78

$$\frac{21}{100} \text{ de } 18 = 3,78$$

$$21 \times 18 = 378$$

$$378 : 100 = \underline{3,78}$$

10% de 20 = 2

$$\frac{10}{100} \text{ de } 20 = 2$$

$$10 \times 20 = 200$$

$$200 : 100 = \underline{2}$$

12% de 325 = 39

$$\frac{12}{100} \text{ de } 325 = 39$$

$$12 \times 325 = 3.900$$

$$3.900 : 100 = \underline{39}$$

10% de 792'27 = 79'227

$$\frac{10}{100} \text{ de } 792'27 = 79'227$$

$$10 \times 792'27 = 7.922'7$$

$$7.922'7 : 100 = \underline{79'227}$$

27% de 300 = 81

$$\frac{27}{100} \text{ de } 300 = 81$$

$$27 \times 300 = 8.100$$

$$8.100 : 100 = \underline{81}$$

1% de 50 = 0'50

$$\frac{1}{100} \text{ de } 50 = 0'50$$

$$1 \times 50 = 50$$

$$50 : 100 = \underline{0'50}$$

30% de 60 = 18

$$\frac{30}{100} \text{ de } 60 = 18$$

$$30 \times 60 = 1.800$$

$$1.800 : 100 = \underline{18}$$

15% de 860 = 129

$$\frac{15}{100} \text{ de } 860 = 129$$

$$15 \times 860 = 12.900$$

$$12.900 : 100 = \underline{129}$$

25% de 640 = 160

$$\frac{25}{100} \text{ de } 640 = 160$$

$$25 \times 640 = 16.000$$

$$16.000 : 100 = \underline{160}$$

36% de 275 = 99

$$\frac{36}{100} \text{ de } 275 = 99$$

$$36 \times 275 = 9.900$$

$$9.900 : 100 = \underline{99}$$
